"My people you must be prepared! The enemy is strong, he is mighty, but I...Greater is Me that is in you. Know that this evening...know that now, because he comes to attack, he comes to try, and he comes to stop the work of My Kingdom. But he has been defeated. You must know that! Those are not just words but that is My Truth. You must stand on that, you cannot become weary, you cannot become weak, but you must be strong in My Word, you must be strong in My Spirit and know, know, know who the enemy of your soul is. Recognize him. He is trying. He is plotting because my Work is Mighty. My Work is going forward and it is not going forward through just anyone, it is going forward through you! I have set you aside. I have called you and you must take that, you must value that because you are my own. I have called you...do you hear me? Do you hear me? I have called you. I have called you to be a light, to be a regional center, to be a mighty work of my Hand. But you must accept it, because the Power that will flow through you is bigger. This is just the beginning. Accept where I am taking you. Accept what I am doing in you. Do not become weary...do not become weary in doing good, in seeking me, in seeking my Spirit because I have given him to you to lead you and to guide you and to take you to those places that I have prepared for you. I have called you, you are my own, you are not alone for I, Your God... I am with you."
